

Aloe Hip Chairs

Designed to meet the needs
of orthopedic patients.

Assists the patient to sit and stand with minimal stress.

Aloe Hip Chairs are designed to meet the needs of orthopedic patients.

With a seat height of 24.5 inches, the design allows a hip flexion of less than 90 degrees while assisting the patient to sit and stand with minimal stress on the hip joints. The built in foot bar supports the patient getting in and out of the chair, and provides a place to rest their feet. The foot bar has a durable non-slip IC+ coating. Available in 21" and 24" widths, Aloe Hip Chairs are made with high resilient foam offering exceptional comfort and firm support, meeting the ergonomic requirements.

healthCentric chairs can be upholstered in IC+, which allows the chair to be completely cleaned and disinfected.

Superior Infection Control

Proprietary to healthCentric, IC+™ Upholstery Solution* is a breakthrough technology specially formulated for the healthcare industry. Providing durability where it matters most, IC+ has a superior abrasion rating of 1,000,000 double rubs while guaranteed not to crack, puncture or tear for 10 years.

- + Puncture and tear resistant
- + Sealed and seamless
- + Hospital-grade cleaning agent tough†
- + Non-porous
- + Guaranteed not to crack
- + Bed bug proof
- + PVC- and latex-free
- + GREENGUARD® certified
- + 10 year warranty
- + CAL 133 compliant

1 Clip system option - Unique to healthCentric, the removable seat clip system ensures ease of cleanability without compromising support or patient safety. The seat is quickly and safely removed. This allows for the entire seat pan to be cleaned, including the underside of the seat, seat clips and support bars.

2 External back bracket option - The Aloe exposed bracket design allows the backrest to be completely sealed when upholstered in IC+. Ideal for areas where infection control and cleanability is essential.
