

HÅG

Conventio Wing®

ergoCentric Seating Systems is the exclusive distributor
of Scandinavian Business Seating products in Canada.

health**H**centric™
medical grade seating

A solid lightweight.

The HÅG Conventio Wing is a dynamic chair that is specially designed for meetings and conferences. The integrated rocking mechanism inspires movement and variation, improving the ability to stay alert and concentrated in long meetings.

Constructed from lightweight materials, recycled automobile bumpers and plastic household waste bottles, the wing shape back gives the chair a fresh shape that can withstand heavy use. The HÅG Conventio Wing is self-stabilizing on uneven ground and is never unstable when sitting. Simple maintenance makes the chair well suited as a general purpose chair for conferences, schools, universities, libraries, canteens, cafés and hotels.

Design: Peter Opsvik. Patent and design protected.
